

Solihull Location of Choice for French Software Solutions Company

Solihull Council welcomes new investor HumanPerf Software, to their new UK office at Regus, Blythe Valley Park, Solihull.

After 5 years of success in France, the software solution company have chosen to expand internationally, with the UK being the first of many markets they intend to target with their new generation systems.

With a background in change and project management, information systems deployment and organisation consulting, they have built products around the needs of medium and large companies, across every industry and sector. Developing products in collaboration with customers and partners has led to comprehensive, user-friendly and reliable software solutions and their flagship product for continuous improvement management and strategy implementation, is now leader in its market.

Councillor Courts, Cabinet Member for Community & Economic Regeneration, said: 'HumanPerf's decision to be based within Solihull confirms that the area remains a prime location for international businesses, despite the current economic circumstances. Our strength in attracting and retaining companies within the Information and Communication Technology sector is apparent through the 9 expansions or relocations within the Borough during 2008/09.'

Sebastien Rosso UK Business Developer at HumanPerf Software, said: 'Winning a worldwide contract has triggered the need for us to decide to open an office in the UK. The Solihull area is home to globally renowned companies and offers a pleasant and very central location with excellent connections. The Solihull Council team has been of tremendous help during our first months in the area.'

We believe that the UK is a major market in terms of continuous improvement, idea management and strategy implementation through employee empowerment and we are looking forward to significantly developing our customer base in this country.'

The Council works closely with its partners to offer a complete package of support to existing businesses within Solihull and those wishing to relocate to the Borough. They are keen to hear from local companies to find out about issues currently being faced and how local support can be provided to assist through the downturn.
