

**COMMUNITY SERVICES DIRECTORATE**

**TRADING STANDARDS  
& LICENSING**

**GUIDANCE NOTES**  
**FOR THOSE PERSONS**  
**WISHING TO SELL PART II POISONS**

Poisons Act 1972  
Poisons Rules 1982  
Notes

- 1                    Persons entitled to sell poisons
- (a)                A person whose name is entered in a local authority's list as a listed seller of Part II poisons is permitted, subject to certain conditions to sell the poisons set out in Appendix 'A' to these notes
  - (b)                The entry of a person's name in a local authority's list does not entitle that person to retail poisons in Part I of the Poisons List. Such poisons may only be retailed by registered pharmacists.
- 2                    (a)                The sale of Part II poisons must be effected only on the premises specified in the local authority's list.
- (b)                It is not permissible for any Part II poison to be sold from or offered for sale in an automatic machine.
- 3                    Special restrictions relating to certain poisons.
- In the case of the sale of any of the poisons set out in Appendix 'B' to these notes the purchaser must either:-
- (a)                be known to the seller, or the person in charge of the premises on which the substance is sold and who's name is on the local authority's list, to be a person to whom the poison may be properly sold
- OR
- (b)                produce a valid certificate in the form prescribed in Schedule 10 of the Poisons Rules 1982.
- In addition-
- (a)                In the cases of these poisons, the required particulars of the sale must be recorded, before delivery in the Poisons Book, to be kept in the prescribed form in Schedule 2 of the Poisons Rules 1982, and the entry must be signed by the purchaser. In the case of a sale to a person for the purpose of his trade or business, the purchaser's signature may be dispensed with upon certain conditions, one of which is that an order, signed by the purchaser, has been obtained previously.
  - (b)                These poisons must be stored on retail premises in a cupboard or drawer reserved solely for the storage of poisons or in a separate part of the premises where no customers are permitted access or on a shelf used exclusively for the storage of poisons. They shall be kept away from and not above any area used for food.
  - (c)                These poisons may only be sold by the listed seller or a responsible deputy.

- 4 Certain poisons, set out in **Appendix 'C'** to these notes, may only be sold in the form specified therein.
- 5 Certain poisons, set out in **Appendix 'D'** to these notes, may only be sold to persons engaged in the trade or business of agriculture, horticulture or forestry and for use in that trade or business.
- 6 All Part II poisons must be sold in the containers in which the seller received them and must not be subjected to any form of manipulation, treatment or processing which might have exposed the poison.
- 7 The articles set out in **Appendix 'E'** in these guidance notes are exempt from all of the requirements of the Poisons Act 1972 and the Poisons Rules 1982.
- 8 Fees

The fees chargeable for entry, alteration or retention of a person's name in the Local Authority's list of persons entitled to sell Part II poisons, are set out in **Appendix 'F'** to these guidance notes.

#### Note

In the Appendices that follow, the poison that is listed may be an ingredient forming part of a commercially available preparation being sold under various trade names.

All substances which are subject to the Poisons Act 1972 and the Poisons Rules 1982 (**Appendix 'A'**) are also subject to the **Chemicals (Hazard Information and Packaging for Supply) Regulations 1994** and must be labelled in accordance with these regulations with the appropriate indication of danger symbol and if they are not pesticides, be contained in a container which has a child resistant fastening and which carries a tactile warning device.

#### Warning

Nothing in these guidance notes shall be treated as in any way allowing the sale of substances which are banned or severely restricted elsewhere by other legislation. Thus substances marked with an asterisk (\*) are either banned from sale as pesticides or have had their use severely restricted from 1<sup>st</sup> January 1972.

Appendix 'A'  
Poisons List Part II

Poison

Aldicarb

Alph – chloralose

Ammonia

Arsenic, the following compounds of:

Calcium arsenites

Copper acetoarsenite

Copper arsenates

Copper arsenites

Lead arsenates

Barium, the following salts of

Barium carbonate

Barium silicofluoride

Carbofuran

Cycloheximide

\* Dinitrocresols (DNOC); their compounds with a metal or a base.

\*Dinoseb, its compounds with a metal or a base.

\*Dinoseb

Drazoxolon; its salts

Endosulfan

Endothal; its salts

\*Endrin

Fentin, compounds of

Formaldehyde

Formic Acid

Hydrochloric acid

Hydrofluoric acid, alkali metal bifluorides,  
ammonium bifluoride; alkali metal fluorides;  
ammonium fluoride; sodium silicofluoride.

Poison

\*Mercury chloride, Mercuric iodide; organic compounds of mercury, except compound with a methyl (CH<sub>3</sub>) group directly linked to the mercury atom.

Metallic oxalates

Methomyl

Nicotine, its salts; its quaternary compounds

Nitric acid

Nitrobenzene

Oxamyl

Paraquat, salts of

Phenols (as defined in Part 1 of the poisons list) in substances containing less than 60% w/w, of phenols; compounds of phenols with a metal in substances containing less than 60%, w/w, of phenols

Phosphoric acid

Phosphorus compounds, the following:-

Azinphos-methyl

Dialifos

Chlorfenvinphos

Dichlorvos

Demephion

Dioxathion

Demeton-S-methyl

Disulfoton

Demeton-S-methyl sulphone

Fonofos

Mevinphos

Macarbam

Omethoate

Mephosfolan

Oxydemeton-methyl

Methidathion

Parathion

Phenkapton

Pirimiphos-ethyl

Phorate

Quinalphos

Phosphamidon

Thiometon

Thionazin

Triazophos

Vamidothion

Potassium hydroxide

Sodium hydroxide

Sodium nitrite

Sulphuric acid

Thiofanox

Zinc phosphide

(Source: Poisons List Order 1982)

Appendix 'B'  
Poisons to which special restrictions apply (See note 3)

| <u>Poison</u>   | <u>Poison</u>  |
|---|--|
| <b>Aldicarb</b>   | (Hg); potassio-mercuric iodides except substances containing less than the equiv. of 1% of mercuric-iodide; organic compounds of mercury, except substances not being aerosols, containing less than the equiv. of 0.2%, weight in weight of mercury (Hg). |
| Alpha-chloralose; Except preparations for indoor use, for the destruction of rats and mice, and containing not more than 4% alph-chloralose or 8.5% when contained in a bag or sachet and itself inside a device. |  |
| Arsenic; its compounds, except substances containing less than the equivalent of 0.0075% of arsenic (As)  | <b>Methomyl</b>  |
| Barium, salts of other than barium sulphate   | Nicotine, its salts; its quaternary compounds, except agricultural and horticultural insecticides consisting of nicotine dusts containing not than 4% w/w of nicotine.   |
| Barium carbonate; Except preparations for the destruction of rats and mice.   | <b>Oxamyl</b>  |
| Carbofuran  | Paraquat, salts of   |
| Cycloheximide   | Phosphorus compounds, the following-   |
| *Dinitroresols (DNOC); their compounds with a metal or a base, except winter washes containing not more than the equivalent of 5% of dinitroresol.  | Azinphos-methyl                      Dialifos<br>Chlorfenvinphos                      Dichlorvos<br>Demephion                              Dioxathion<br>Demeton-s-methyl                      Disulfoton<br>Demeton-S-methyl sulphone                     |
| *Dinoseb; its compounds with a metal or a base  | Fonofos                                      Mevinphos<br>Mecarbam                                Omethoate<br>Mephosfolan                            Oxydemeton-methyl<br>Methidathion                            Parathion                               |
| *Dinoterb   | Phenkapton                              Pirimiphos-ethyl<br>Phorate                                    Quinalphos<br>Phosphamidon                          Thiometon<br>Thionazin<br>Triazophos<br>Vamidothion   |
| Drazoxolon; its salts   |  |
| Endosulfan  |  |
| Endothal; its salts   |  |
| *Endrin   | <b>Thiofanox</b>   |
| Fentin, compounds of  | Zinc phosphide; Except preparations for the destruction of rats or mice  |
| *Mercuric chloride, except substances containing less than 1% mercuric chloride. Mercuric iodide, except substances containing less than 2% mercuric iodide;  |  |
| nitrate of mercury, except substances containing less than the equiv. of 3% weight in weight of mercury   |  |

(Source: Poisons Rules 1982  
Sch. 1 but excluding items not  
listed in Part II of the Poisons  
List Order 1982)

Appendix 'C' (page 1)

Form to which the poisons specified are restricted when sold by licenced sellers of Part II poisons

| <u>Poison</u>   | <u>Form to which sale is restricted</u>   |
|---|---|
| Aldicarb  | Preparations for use in agriculture, horticulture or forestry   |
| Alpha chloralose  | Preparations intended for indoor use in the destruction of rats or mice and containing not more than 4% weight in weight, of alpha-chloralose; preparations intended for indoor use in the destruction of rats or mice and containing not more than 8.5%, weight in weight, of alphachloralose, where the preparation is contained in a bag or sachet which itself is attached to the inside of a device in which the PreparationS is intended to be so used and the Device contains not more than 3 grams of the preparation |
| Arsenic, compounds of :-<br>Calcium arsenites<br>Copper acetoarsenite<br>Copper arsenates<br>Lead arsenates | Agricultural, horticultural and forestry insecticides or fungicides   |
| Barium carbonate  | Preparation for the destruction of rats or mice   |
| Carbofuran  | Preparations for use in agriculture, horticulture or forestry   |
| Cycloheximide   | Preparations for use in forestry  |
| *Dinitroresols (DNOC); their compounds with a metal or a base   | Preparations for use in agriculture, horticulture or forestry   |
| *Dinoseb; its compounds with a metal or a base  | Preparations for use in agriculture, horticulture or forestry   |
| *Dinoterb   | Preparations for use in agriculture, horticulture or forestry   |
| Drazoxolon; its salts   | Preparations for use in agriculture, horticulture or forestry   |
| Endosulfan  | Preparations for use in agriculture, horticulture or forestry   |

Appendix 'C' (page 2)

| <u>Poison</u>                                      | <u>Form to which sale is restricted</u>   |
|--|---|
| Endothal; its salts                                | Preparations for use in agriculture, horticulture or forestry   |
| * Endrin   | Preparations for use in agriculture, horticulture or forestry   |
| Fentin, compounds of                               | Preparations for use in agriculture, horticulture or forestry   |
| *Mercuric chloride                                 | Agricultural, horticultural and forestry fungicides,treatments on seeds or bulbs, insecticides  |
| Mercuric iodine                                    | Agricultural, horticultural and forestry fungicides,treatments on seeds or bulbs  |
| Mercury, organic compounds of                      | Agricultural, horticultural and forestry fungicides,treatments on seeds or bulbs, solutions containing not more than 5% weight, in volume of phenyl mercuric acetate for use in swimming baths. |
| Metallic oxalates other than potassium quadoxalate | Photographic solutions or materials   |
| Methomyl   | Preparation for use in agriculture, horticulture or forestry.   |
| Nitrobenzene                                       | Agricultural, horticultural and forestry insecticides   |
| Oxamyl   | Preparations for use in agriculture, horticulture or forestry   |
| Paraquat, salts of                                 | Preparation for use in agriculture, horticulture or forestry  |

Appendix 'E' (page 2)

GROUP II

Special Exemptions

| <u>Poison</u>          | <u>Substance or article in which exempted</u>   |
|------------------------|---|
| Ammonia                | Substances not being solutions of ammonia or preparations containing solutions of ammonia; substances containing less than 10%, weight in weight, of ammonia (NH <sub>3</sub> ); refrigerators  |
| Arsenic, its compounds | Pyrites ores or sulphuric acid containing arsenic or compounds of arsenic as natural impurities; in reagent kits or reagent devices, supplied for medical or veterinary purposes, substances containing less than 0.1% weight in weight, or arsanic acid. |
| Barium, salts of       | Witherite other than finely ground witherite; barium carbonate bonded to charcoal for case hardening; fire extinguishers containing barium chloride; sealed smoke generators containing not more than 25% weight in weight, of barium carbonate           |
| Bromomethane           | Fire extinguishers  |
| Carbofuran             | Granular preparations   |
| Drazoxolon; its salts  | Treatments on seeds   |
| Formaldehyde           | Substances containing less than 5%, weight in weight, of formaldehyde (H.CHO); photographic glazing or hardening solutions  |
| Formic Acid            | Substances containing less than 25%, weight in weight, of formic acid (H.OOH)   |
| Hydrochloric Acid      | Substances containing less than 10% weight in weight of hydrochloric acid (HC <sub>1</sub> )  |
| Hydrogen cyanide       | Preparations of wild cherry; in reagent kits supplied for medical or veterinary purposes, substances containing less than the equivalent of 0.1% weight in weight, of hydrogen cyanide (HCN)  |

Appendix 'E' (page 3)

| <u>Poison</u>  | <u>Subject or article in which exempted</u>   |
|--|---|
| Lead acetates  | Substances containing less than the equivalent of 2.5% weight in weight, of elemental lead (Pb)   |
| Mercuric chloride  | Batteries   |
| Mercuric chloride; mercuric iodide; organic compounds of mercury | Treatments on seeds or bulbs  |
| Mercury, oxides of   | Canker and wound paints (for trees) containing not more than 3%, weight in weight, of yellow mercuric oxide   |
| Methomyl   | Solid substances containing not more than 1% weight in weight of methomyl   |
| Nicotine, its salts; its quaternary compounds                    | Tobacco, in cigarettes, the paper of a cigarette (excluding any part of that paper forming part of or surrounding a filter), where that paper in each cigarette does not have more than the equivalent of 10 milligrams of nicotine; preparations in aerosol dispensers containing not more than 0.2% of nicotine, weight in weight, other liquid preparations, and solid preparations with a soap base, containing not more than 7.5% of nicotine, weight in weight. |
| Nitric Acid  | Substances containing less than 20% weight in weight, of nitric acid (HNO <sub>3</sub> )  |
| Nitrobenzene   | Substances containing less than 0.1% of nitrobenzene, polishes  |
| Oxalic acid; metallic oxalates                                   | Laundry blue; polishes; cleaning powders or scouring products, containing the equivalent of not more than 10% of oxalic acid dihydrate  |
| Oxamyl   | Granular preparations   |
| Paraquat, salts of   | Preparations in pellet form containing not more than 5% of salts of paraquat, calculated as paraquat ion  |

Appendix 'E' (page 4)

| <u>Poison</u>  | <u>Substance or article in which exempted</u>   |
|--|---|
| Phenols  | Creosote obtained from coal tar; liquid disinfectants and antiseptics containing less than 0.5% phenol and containing less than 0.5% of other phenols (as defined in the Poisons List); motor fuel treatments not containing phenol and containing less than 2.5% of other phenols; in reagent kits supplied for medical or veterinary purposes; solid substances containing less than 60% of phenols; tar (coal or wood) crude or refined ; in tar oil distillation fractions containing not more than 5% of phenols; tert-butylcresol; p-tert- butylphenol; p-tert-pentylphenol; p-(1,1,3,3 – tetramethylbutyl) phenol; thymol. |
| Phenylmercuric salts   | Antiseptic dressings on toothbrushes; in textiles containing not more than 0.01% of phenylmercuric salts as a bacteriostat and fungicide.   |
| Phosphoric acid  | Substances containing phosphoric acid, not being descaling preparations containing more than 50% w/w of ortho-phosphoric acid.  |
| Phosphorus compounds, the following:-<br>Chlorfenvinphos<br>Dichlorvos | Treatments on seeds; granular preparations. Preparations in aerosol dispensers containing not more than 1% w/w of dichlorvos; materials impregnated with dichlorvos for slow release; granular preparations; ready for use preparations containing not more than 1% weight in volume, of dichlorvos   |
| Disulfoton<br>Fonofos  | Granular Preparations<br>Granular Preparations  |
| Oxydemeton - methyl  | Aerosol dispensers containing not more than 0.25% w/w of oxydemeton-methyl  |

Appendix 'E' (page 5)

| <u>Poison</u>         | <u>Substance or article in which exempt</u>  |
|-----------------------|--|
| Parathion             | Granular Preparations  |
| Phorate               | Granular Preparations  |
| Pirimiphos – ethyl    | Treatments on seeds  |
| Thionazin             | Granular Preparations  |
| Triazophos            | Granular Preparations  |
| Potassium hydroxide   | Substances containing the equivalent of less than 17% of total caustic alkalinity expressed as potassium hydroxide; accumulators; batteries.   |
| Sodium fluoride       | Substances containing less than 3% of sodium fluoride as a preservative  |
| Sodium hydroxide      | Substances containing the equivalent of less than 12% of total caustic alkalinity expressed as sodium hydroxide  |
