

# Strategy on a page

Mission

Helping people live longer, healthier lives

Vision for residents

To have the same opportunities regardless of where you live

Be able to grow old without the fear of getting old

Access to safe, high quality, effective care, delivered locally

Strategic Objectives

### Quality

1. Improve health outcomes and wellbeing, and reduce inequalities for the people of Solihull
2. Enable continuous improvements in the quality of care and outcomes through the care we commission
3. Continuous improvement in quality of primary medical services we provide

### Delivery

4. Operate within financial limits, effectively and efficiently
5. Delivery of QIPP Plan
6. Develop and manage Solihull CCG to be an effective commissioner

### Transformation

7. Integration of health and social care services in primary and secondary care
8. Promote innovation, research, education and training within health care
9. Where appropriate ensure choice as well as access to high quality services are available to patients

### Engagement and Leadership

10. Collaborate across Birmingham and Solihull health economy to ensure that patients get excellent quality and efficient care at all times
11. Promote involvement of patients, carers in their care
12. Engagement with members in commissioning
