

52 Things to Support your Child's Speech and Language Skills.

Silly picnic game

Collect some food together - either real or play food - and put it in a bag.

Now make up silly nonsense rhyming clues to see if your child can guess what you are taking on a pretend picnic.

Saying lots of silly nonsense rhyming words gives them the chance to hear the rhyme lots of times and this will help them to guess.

Felly, belly, welly, telly...shall we
take a wobbly.... (jelly)?

Liskets...tiskets...miskets...
shall we take a packet of ...

Why focus on rhyme?

- Rhyme is a great way to get children having fun with language
- Listening for a rhyme helps children to be more aware of sounds in words
- Rhyming is a really important skill for reading and spelling

Make it easier: say the rhyming words and the initial sound of the item you are thinking of.

Make it harder: Ask your child to make up the rhyming words so you can guess the food item.
