

Rock art bugs

When you go out on a nature walk be sure to pick up some rocks of all different shapes and sizes.

Talk about how you could decorate the rocks into different bugs. E.g. ladybird, bumble bee.

Follow these instructions:

1. Wash the rocks under the tap and pat dry with a towel.
2. Set out newspaper as a work surface.
3. Paint the rocks using different coloured paints.
4. Think about adding some patterns, for example spots or stripes.
5. You could use marker pens to add extra details and googly eyes if you wished.

Make it easier: What name will you give your bug? Where will your bug live?

Make it harder: Make up a simple story using your bugs.

Activity 31: brought to you by SISS SLCD Team
