

52 Things to Support your Child's
Speech and Language Skills.

Super sounds

You will need a stick or a spoon for this activity.

Whilst in your garden, use your stick to explore the different sounds you can make as you tap different surfaces.

Talk about the different sounds you can hear. Which sounds are loud? Which sounds are quiet? Use words such as 'bang', 'ting', 'crash', 'ding' and 'boom' to describe the sounds.

Make it easier: Choose a surface and make the loudest sound you can. Which surface is the best for this?

Make it harder: Choose 2 or 3 surfaces. Close your eyes and listen whilst someone taps the surface. Can you guess which surface they tapped to make the sound?
