

**52 Things to Support your Child's
Speech and Language Skills.**

BATH TIME

Use bath toys or everyday objects to illustrate preposition words such as:

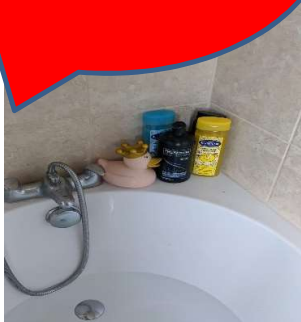

"The duck is on
the water."

"The water is in
the bath."

"The shampoo is
next to the
taps."

"The soap is
under the
water."

Make it easier: Choose one preposition until the child is familiar with it.

Make it harder: Ask your child to say the sentence including the preposition.
