

Streets to be designated with Special Engineering Difficulties

SOLIHULL METROPOLITAN BOROUGH COUNCIL

The structures and associated streets highlighted in the map and table below form the basis of the statutory consultation in the local authority area. This facilitates the requirement as prescribed in Schedule II of The Street Works (Registers, Notices, Directions and Designations) (England) Regulations (2007) and the Code of Practice for the Co-ordination of Street Works and Works for Road Purposes and Related Matters (2nd Edition) (Wales).

This is an interactive pdf which allows you to switch map layers on and off. If the navigation menu does not appear - Click on View -> Show/Hide -> Navigation Panes and then select **Layers** and **Model Tree**. The Layers menu will contain 5 layers which can be switched on and off:

1. The Authority boundary
2. The National Street Gazetteer - an image of the street network in the local authority area
3. The Affected USRNs layer - the streets that are subject to the proposed designation
4. Historical Railway Estate Assets - structures that form part of the Historical Railway Estate portfolio and interact with the local highway authority network
5. National Highways Structures - structures on the Strategic Route Network maintained by National Highways that interact with the local highway authority network

The Model Tree Layer contains the same 5 layers. Expanding the Affected USRNs, Historical Railway Estate Assets and National Highways Structures layers will allow you to interact with each object. Right click on the selected object and Zoom to Selection. Clicking on the street object in the map will open up a new web browser and navigate to the street within the Find My Street application.

Summary of Structures within Area:

| Data Sources | Structures | Affected Streets |
|----------------------------------|------------|------------------|
| Historical Railway Estate Assets | | |
| National Highway Structures | 33 | 21 |

Data Generated: 08-03-2022

Streets to be designated with Special Engineering Difficulties SOLIHULL METROPOLITAN BOROUGH COUNCIL

Legend

-  Authority Boundary
-  The Affected USRNs layer
-  Historical Railway Estate Assets
-  National Highways Structures
