

CIL Indexation Note 2023

In accordance with CIL Regulation 40, we index-link our CIL rates so they rise or fall in line with inflation. Initially this was based on the BCIS All-in Tender Price index, but since 2020 the RICS Building Index for CIL has been used. The index figure for a given calendar year is the figure for 1st November for the preceding calendar year in the relevant index.

The rates in the adopted CIL Charging Schedule are relevant to calculate CIL liability on permissions granted on or before 31 December 2016.

We will apply indexation to the rates in the adopted CIL Charging Schedule on permissions granted on or after 1 January 2017, and subsequently on 1 January every year. Use the table below with the year planning permission was granted to work out the rate in pounds per square metre.

Description	2016	2017	2018	2019	2020	2021	2022	2023
Res. Mature Suburbs	£75	£79.70	£83.58	£88.01	£92.44	£92.16	£91.88	£98.25
