

Go Traffic Management

This drawing has been produced for a specific client & project identified below and is not intended for use by any other person or for any other purpose. © Go Traffic Management

- RISKS**
- Design completed from information provided + google maps desktop risk assessment.
 - Concave lamps must be used on all road with a speed limit of 40mph or more.

- NOTES**
- All signs as per Chapter 8. Distances between cones to be 5m minimum unless otherwise noted.
 - Distances between signs NOT to scale for purpose of clarity.
 - All sign placement subject to available safe working space.
 - The pattern of the Traffic Management Plan is for it to be used only as a guide and all traffic management equipment should be put out according to the Safety of Street Works and Road Works - Code of Practice, i.e. Red Book & the Traffic Signs Manual Chapter 6.
 - Lamp posts used on the route to be 3.6m maximum, 3.25m desirable minimum and 3.0m absolute minimum.
 - Signs & cones must be available and utilised in the event of permanent signal failure in accordance with Code of Practice, Road Works Manual.
 - Signs must be placed in accordance with TSM and the scheme.
 - Site conditions may have changed since the design of the drawing was produced. It is the responsibility of the client to ensure that any changes which subsequently affect the design need to be reported to the Traffic Management Operative & any changes implemented accordingly.
