### 4. Confirmation

Once a request for an 'H' marking is made it is assessed against the criteria in the 'H' bar markings policy document. Should the request be made for a private access to two or more properties then the neighboring property will be contacted before a final decision is made. We will then review and let you know within 28 days whether it has been successful. When we contact you, we will send you a plan showing you the proposed extent of the new H Bar, along with a reference number which you can use to pay the application fee online if you wish to proceed.

Once we have received confirmation that the fee has been paid, the works typically take between 6-8 weeks from ordering before they are installed. Please note that if the location is scheduled for resurfacing at a point within the next 3 months, H bar markings will not be laid until after those works have been completed.

**I declare that I have read, understood and agree to the conditions outlined in this form and in the 'H' bar marking policy document. All information I have provided is accurate to the best of my knowledge.**
