## **Better Living Centre – Unit 4 Elmdon Trading Estate B37 7HE**

### **Parking at the BLC**

We hold a number of training sessions, meetings and clinics from the centre so parking can be limited at the front of the building. Please can you advise any attendees/staff to park in the overflow Car Park located at the side of the building, please note; disabled spaces are located in the Car Park at the front of the building.

Directions to the overflow Car Park; **when driving in to the trading estate you take the first right after passing the security office. Then following that road down to the ‘yellow goal posts’, drive through these posts and you can park anywhere in this car park however if you are parked against the wall you must obtain a pass from reception. The Car Park is right at the side of the building so the walk from the overflow car park is very short and there are signs directing you round to reception.** A map is available at request please email [blc@solihull.gov.uk](mailto:blc@solihull.gov.uk).
